

Craig Carthel is a Senior Scientist in the Command and Operational Support Department at the NATO Undersea Research Centre in La Spezia, Italy, where he works on military operations research, simulation, optimization, and target tracking. He received BS degrees in Physics and Mathematics in 1988, a MS in Mathematics in 1992, and a PhD in Mathematics in 1995, all from the University of Houston, where he did research in numerical analysis and optimization theory. From 1995 to 1997, he worked at the Institute for Industrial Mathematics at Johannes Kepler University, in Linz, Austria on parameter identification and inverse problems. From 1998 to 2002, he was a Senior Mathematician at ALPHATECH Inc. in Burlington MA, where he worked on image processing, multisensor data fusion and ground target tracking.
